**BACKGROUND  
CONTINUED**

The Little Rock Police Department (LRPD) needs access to an on-demand report available through the ShotSpotter Respond Application. The Investigative Lead Summary (ILS) provides useful details regarding the approximate location, timing and sequence of each shot fired during an incident, and allows law enforcement to locate shell casing, confirm witness accounts and identify suspects. The reports are available immediately after an incident occurs. Court-admissible documents are also provided and used by attorneys as part of a court case for the exact, verified timing, sequence and location of each shot fired. LRPD requests that the approval to execute a contract amendment with Shot Spotter as it relates to the renewal of Annual Flex Subscription Services for an additional two (2)-year period (December 19, 2020, through December 18, 2022) be approved. The extension must be mutually agreed upon by both parties, or the lease will be terminated.
