

Little Rock Disparity Study

2024 Public Engagement Sessions

The City of Little Rock has commissioned BBC Research & Consulting to conduct a disparity study to assess whether any barriers exist for small businesses, veteran-owned businesses, disabled-owned businesses, person of color-owned businesses, or woman-owned businesses when they participate in the City's contracting processes.

ARE YOU INTERESTED IN THE CITY OF LITTLE ROCK'S CONTRACTING OR PROCUREMENT?

We want to hear about your experiences working in Little Rock.

ATTEND A VIRTUAL STAKEHOLDER ENGAGEMENT SESSION TO:

- Learn more about the study
- Ask questions about the study
- Share your experiences to help inform the City's procurement policies
