Narratives

Disaster Damage:

On March 31, 2023, an EF-3 tornado with peak winds of 165 mph struck the City of Little Rock, carving a 25-mile path of destruction up to 800 yards wide. The storm severely impacted several neighborhoods, including Walnut Valley, Napa Valley, Cammack Village, Colony West, Reservoir Road, and Rodney Parham. Total estimated property damage within the city reached \$85.7 million. Local inspectors conducted 1,446 structural assessments, and FEMA verified 140 homes with Major-Low or greater damage, resulting in \$12.6 million in residential losses. Of these, 40 were owner-occupied and 100 were renter-occupied units. FEMA provided \$557,923 in housing assistance, leaving an unmet residential need of \$12.1 million. Public facilities also sustained significant damage. Fire Station No. 9 was destroyed, with reconstruction costs estimated at \$4.2 million. Parks were heavily affected, including 60 acres of damage at Reservoir Park (\$1.8 million) and substantial losses at Rock Creek Park (\$1.5 million). Debris blocked major transportation corridors, including Shackleford, Breckenridge, and Cantrell, requiring extensive cleanup efforts. The commercial sector experienced \$335 million in damages, with \$51.9 million in unmet needs after insurance. Business centers like Colony West and Pavilion in the Park each reported damages exceeding \$3 million. At the height of displacement, 1,269 individuals from 700 households relied on non-congregate sheltering. Many of the affected neighborhoods had high concentrations of renters and aging housing stock, compounding long-term recovery challenges.

Recovery Needs:

Little Rock continues to face significant unmet recovery needs across housing, infrastructure, and economic development. Housing remains the most urgent priority, with \$12.1 million in unmet residential losses and a persistent shortage of affordable rental units. Many damaged homes, particularly older single-family and multifamily structures, require major repairs or full replacement. Displaced residents (renters and low-income households) need long-term support to regain stable housing. Infrastructure recovery includes rebuilding Fire Station No. 9, restoring damaged parks, repairing drainage and roadway systems, and enhancing public utilities and facilities to improve resilience against future disasters. Economic recovery remains a critical need for small businesses that experienced physical damage or revenue loss. Revitalizing commercial corridors is essential to restoring jobs and community activity. Overall recovery priorities include:

- Rebuilding and replacing damaged housing
- Restoring key public facilities and infrastructure
- Supporting affected businesses and commercial centers
- Incorporating resilient design and mitigation strategies

Most Impacted and Distressed	\$.00	\$20,895,000.00	\$.00

Overall Progress Narrative:

During this reporting period, the City of Little Rock focused on advancing program readiness and administrative capacity to support implementation of its CDBG-DR programs in alignment with the approved Action Plan. Consistent with identified unmet needs, the City prioritized housing recovery while also advancing planning efforts for infrastructure, economic revitalization, public services, and mitigation. Activities during the quarter included finalizing program manuals, establishing application processes including implementing the Neighborly system, initiating environmental review activities, and preparing for program launch.

The City also carried out outreach and communication efforts to inform residents of available programs and continued to meet the requirements of its Citizen Participation Plan by maintaining public access to program information, supporting outreach to impacted communities, and updating the CDBG-DR website to ensure transparency and accessibility.

Housing programs officially launched on April 6, 2026; therefore, this reporting period primarily reflects pre-launch and setup activities.

Activity Description:

Funds for program administrative costs.

Location Description:

Activity Progress Narrative:

During this reporting period, the City advanced administrative capacity and systems to support program implementation and compliance with HUD requirements and the Citizen Participation Plan.

- Drafted program manuals across all program areas, with housing manuals finalized
- Conducted staff training and professional development
- Implemented and configured the Neighborly system to support application intake and program tracking
- Updated and maintained the CDBG-DR public website to ensure public access to program information
- Supported outreach and communication efforts to inform residents and stakeholders

Next Quarter Priorities

- Support ongoing program implementation
- Continue DRGR reporting and compliance tracking
- Monitor application processing and system performance

- Continue public communication, outreach, and engagement efforts

Activity Description:

Assistance to support business recovery, workforce stabilization, and economic revitalization in areas impacted by DR-4698.

Location Description:

Little Rock, Arkansas

Activity Progress Narrative:

During this reporting period, the City initiated planning for the Economic Revitalization Program to support business recovery and economic stability identified in the Action Plan.

- Drafted the Economic Revitalization Program Manual (under review)
- Began development of the program approach and structure
- Coordinated internally on program design and implementation considerations

As the program remains in early development, implementation activities have not yet begun.

Next Quarter Priorities

- Finalize the program manual

- Continue program design and development
- Coordinate with stakeholders and partners
- Prepare for program launch

Activity Description:

Financial assistance to income-eligible households for the purchase of owner-occupied housing units impacted or displaced by DR-4698.

Location Description:

Little Rock, Arkansas

Activity Progress Narrative:

During this reporting period, the City advanced the Homebuyer Assistance Program (HAP) to support long-term housing recovery and access to homeownership.

- Finalized the HAP Policy Manual
- Developed the application package and established intake procedures
- Coordinated application workflow setup
- Initiated environmental review activities, as applicable
- Developed and disseminated marketing and communication material to support program awareness

As the program launched at the end of the reporting period, assistance to beneficiaries had not yet begun.

Next Quarter Priorities

- Process and review applications
- Coordinate with lenders and applicants
- Continue environmental review activities

Activity Description:

Rehabilitation and reconstruction of owner-occupied single-family homes damaged or destroyed by DR-4698 to address remaining unmet housing needs.

Location Description:

Little Rock, Arkansas

Activity Progress Narrative:

During this reporting period, the City advanced the Homeowner Rehabilitation Program (HRP) to address unmet housing needs through key pre-launch, outreach, and program setup activities.

- Finalized the HRP Policy Manual
- Developed the application package and established intake procedures
- Configured the Neighborly system to support application submission, eligibility screening, and workflow tracking
- Initiated environmental review activities in accordance with 24 CFR Part 58
- Developed and disseminated marketing and communication materials to support program awareness and outreach

As the program launched at the end of the reporting period, assistance to beneficiaries had not yet begun.

Next Quarter Priorities

- Process and review submitted applications
- Conduct inspections and develop scopes of work
- Continue environmental review activities

- Continue outreach and communication efforts to eligible residents

Activity Description:

Mitigation activities designed to reduce future disaster risk and improve resilience of public infrastructure and community assets impacted by DR-4698.

Location Description:

Little Rock, Arkansas

Activity Progress Narrative:

During this reporting period, mitigation strategies were incorporated into program planning to support long-term resilience and risk reduction.

- Drafted mitigation-related components within program manuals
- Began consideration of environmental and resilience requirements

As mitigation activities will be implemented alongside future infrastructure projects, no standalone activities have occurred to date.

Next Quarter Priorities

- Continue integration of mitigation into infrastructure planning

- Advance environmental and resilience considerations

Activity Description:

Construction of new owner-occupied single-family homes to replace housing units lost due to DR-4698

Location Description:

Little Rock, Arkansas

Activity Progress Narrative:

During this reporting period, the City advanced the New Affordable Housing Construction Program (NAHCP) to address housing supply needs and support long-term recovery.

- Finalized the NAHCP Policy Manual, establishing program requirements, eligibility, and compliance standards
- Initiated program setup, including procurement planning
- Identified potential locations for new affordable housing construction
- Initiated environmental review activities, including completion of the Tier 1 review and preparation for site-specific reviews

As the program remains in the planning and development phase, no assistance has been provided to date.

Next Quarter Priorities

- Advance procurement activities (RFP)
- Continue environmental review (site-specific reviews)
- Begin developer engagement
- Advance project planning for identified locations
