BACKGROUND	In 2019, the City Board of Directors authorized the City Manager to enter into a contract with Motorola Solutions, Inc., to provide the City's Emergency Communications Department with Radio Infrastructure Equipment including dispatch center console maintenance, Mach Alert hardware, microwave services, radio IP logger, and NICE integrated support program. This contract has been extended annually since the initial one-year contract period in 2019. To ensure uninterrupted continuation of essential emergency services which would be impractical and unfeasible to re-bid, it is necessary to upgrade the service agreement with the existing provider, Motorola Solutions, Inc. Previous board approval of this service contract were authorized under the following Ordinance Nos. 22,578 (February 18, 2025) and 22,720 (February 3, 2026).
