Planning Division:

Land Use Plan:

The request is in District 9, the I-630 Planning District. The development principle of this district is to preserve the residential character of the area and isolate the non-residential use to specific locations without affecting adjacent neighborhoods. The Land Use Plan shows Residential Low Density (RL) use for the application area. The Residential Low Density (RL) category provides for single-family homes at densities not to exceed 6 dwelling units per acre. Such residential development is typically characterized by conventional single-family homes but may also include patio or garden homes and cluster homes, provided that the density remains less than 6 units per acre. The application is for a PD-C for an STR-2 for an existing duplex. South of the application area is Interstate 630. To the north, east, and west is area designated for Residential Low Density (RL) use and is characterized by single-family

dwellings. Further west is an area designated for Mixed Use (MX) uses characterized by single-family homes, duplexes, and multi-unit residences facing the UAMS Medical Center.

Master Street Plan:

S. Oak St. is a Local Street on the Master Street Plan. Local Streets are roads designed to provide access to adjacent property with the movement of traffic being a secondary purpose. The standard Right-of-way is 50'. Sidewalks are required on one side. This street may require dedication of right-of-way and may require street improvements.

Bicycle Plan:

S. Oak St. is not shown on the Master Bike Plan with existing or proposed facilities in this area.

Historic Preservation Plan:

The application, as shown, should have no effect on identified historic resources.

The City's new short-term rental ordinance allows a maximum of 500 short-term rentals within the corporate boundary of the City of Little Rock.

Staff is supportive of the requested rezoning to allow a short-term rental 2 as the desired use. Staff feels the rental will continue to create a diversity of housing options for this neighborhood. Staff feels that the rezoning of this property will have no adverse impact on the surrounding properties in the general area.

Staff recommends approval of the PD-C, subject to compliance with the comments and conditions outlined in paragraph E, and the staff analysis of the agenda staff report.
