**BACKGROUND
CONTINUED**

The applicant submitted a revised site plan to staff on July 16, 2026. The revised site plan reduced the number of residential units from six (6) to five (5). The site plan also included five (5) off-street parking spaces at the east end of the development. Access to the parking spaces will be from the alley along the east property line. The alley is currently partially paved and will need to be improved to city street standards for the width of the property. The addition of off-street parking and the reduction of units addressed staff's concerns.

The Planning Commission reviewed this request at their August 13, 2026, meeting, and there were no objectors present. All owners of property located within 300 feet of the site, as well as Neighborhood Associations registered with the City of Little Rock, were notified of the public hearing, and there have been no comments received. Please see the attached Planning Commission minute record for the complete staff analysis.
